## Pharmacy Practice Panel

Facilitator: Sam Johnson, PharmD, ACCP Director, Health Policy and Interprofessional Affairs

**Theresa Tolle, BSP Pharm** owns Bay Street Pharmacy in Sebastian, Fla., and has experience in chain, long-term care and hospital pharmacy practice. Her independent pharmacy focuses on such clinical services as MTM, counseling, compounding, immunizations and pharmacogenomics testing. She won the 2017 APhA Pharmacy Management Excellence Award, was named an APhA fellow in 2011 and its Good Government Pharmacist of the Year in 2004. She also won Cardinal Health's Ken Wurster Community Leadership Award in 2011. Tolle has worked with such organizations as the National Community Pharmacists Association and the Cardinal Health National Advisory Board, among several others.

**James M. Hoffman PharmD, MS** is an Associate Member in Pharmaceutical Sciences and the Chief Patient Safety Officer at St. Jude Children's Research Hospital in Memphis, Tennessee. His career has focused on evaluating and improving complex medication use systems, and he currently provides leadership of patient safety activities across St. Jude. His research focuses on advancing pharmacogenetics as a proactive medication safety strategy, including St. Jude's implementation effort and nationally through the Clinical Pharmacogenetic Implementation Consortium (CPIC). Through these efforts he works to accelerate implementation of research discoveries in pharmacogenomics into the clinic through the development and dissemination of model practices and clinical practice guidelines. He has experience developing and refining clinical decision support for pharmacogenetics in electronic health records, which informs his leadership of the CPIC Informatics group with colleagues from Mayo Clinic and Stanford.

**Sandra Leal, PharmD, MPH** is the Vice President for Innovation at SinfoniaRx, a provider of medication therapy management services nationally. Dr. Leal is working to establish integrated clinical pharmacy services in a variety of programs including a hospital discharge program, integrated behavioral health clinics, accountable care organizations and patient-centered medical homes. She is utilizing tele-health and other strategies to scale resources to communities, clinicians, and patients. Dr. Leal received her PharmD from the University of Colorado and her MPH in Public Health Practice from the University of Massachusetts. Dr. Leal completed her residency at the Southern Arizona VA Health Care System and a Primary Health Care Policy Fellowship with the Department of Health and Human Services. Her work has been published in *Diabetes Care*, *Advances in Chronic Kidney Disease*, *American Journal for Health-System Pharmacy* and a discussion paper published by the Institute of Medicine entitled, "Patients and Health Care Teams Forging Effective Partnerships". Dr. Leal currently serves as vice chair for the National Center for Farmworker Health and as current member and past chair of the Arizona Department of Health Diabetes Leadership Council. Her programs are a two-time recipient of the APhA Foundation Pinnacle Award, an ASHP Best Practice Award in Health-System Pharmacy and the NACHC Innovative Research in Primary Care Award.
