

Dr. Annette (Annie) Medina-Walpole is the Paul H. Fine Professor of Medicine and Chief of the Division of Geriatrics & Aging at University of Rochester Medical Center (URMC). Dr. Medina-Walpole collaborated with the John A. Hartford Foundation to create a national resource guide on Recruitment to Advanced Fellowship Training and Geriatrics Faculty Positions. She co-directed the URMC Dean's Teaching Fellowship and the Aging Theme, as well as a course for first year students. She was the principal investigator on the Chief Resident Immersion Training Grant and co-principal investigator on the Donald W. Reynolds Foundation grants. She currently serves as Director of Education for the URMC Geriatric Workforce Enhancement Program grant. Dr. Medina-Walpole is the recipient of several awards including a Hartford Center of Excellence Young Investigator Award, the American Geriatrics Society (AGS) New Investigator Award and a Geriatric Academic Career Award. She received the 2016 AGS Dennis W. Jahnigen Memorial Award for her national work in geriatric education. Dr. Medina-Walpole is the current AGS President, has served as Co-Editor in Chief of the Geriatric Review Syllabus, Co-Chair of the Junior Faculty Task Force, Education & Program Committee member, Chair of the Teacher's Section and Chair of the 2008 Annual Meeting. Dr. Medina-Walpole is a graduate of the Executive Leadership in Academic Medicine® (ELAM) program for women leaders. Her current career interests include health system collaboration and innovation, geriatric education and workforce development, and the career development/promotion of clinician educators
