

Michelle Geier, PharmD, BCPP

San Francisco Department of Public Health

Dr. Michelle Geier is a psychiatric clinical pharmacist supervisor for the San Francisco Department of Public Health and is President-Elect of the American Association of Psychiatric Pharmacists (AAPP). She graduated from the University of Washington School of Pharmacy and completed a pharmacy practice PGY1 at the VA Puget Sound and a psychiatric pharmacy PGY2 at University of California San Francisco/San Francisco Department of Public Health. She serves as the Residency Program Director for the ZSFG/UCSF PGY2 in Psychiatric Pharmacy. She specializes in substance use disorder treatment and helps to develop opioid use disorder services throughout the San Francisco Department of Public Health. In addition, she works as a psychiatric clinical pharmacist at the South of Market Mental Health Clinic which serves a largely homeless and dual-diagnosis population. Her professional interests include co-occurring mental health and substance use disorders, take-home naloxone, harm reduction, and medication management in homeless populations.
